ATLAS OF NORTHEASTERN LANDSCAPE CONSERVATION INITIATIVES

GIS APPENDIX

This document accompanies the memo presenting the purpose and content of a Geographic Information System (GIS) of landscape conservation initiatives in the Northeastern United States and their resource, stewardship, urban development and infrastructure context. The northeastern United States is defined as 13 States from West Virginia to Maine plus the District of Columbia.

This is a placeholder while the full document is finalized; please contact Frank Hebbert, GIS Planner, frank@rpa.org 917-546-4306 to obtain the complete appendix.
